### Tile Redi

March 11, 2014

Recently introduced at KBIS 2014, Tile Redi's Redi Neo, is an angled product that offers customers one-piece, tile-able shower pans with custom sizing and the ability to select them with the following integrated drains: the Redi Trench, WonderFall Trench, Wonder Drain or Redi Drain. The Redi Neo allows users to specify any type of tile application, including ceramic, porcelain, marble, granite, natural stone and mosaics, in any size, from a one-piece slab to ½-in. tile sheets. End users can also create a design with the tile to match an existing bath or choose an entirely different tile for the shower floor as an accent.
